

Certification Readiness workshop - SA Associate

Overview

Designed to complement [Architecting on AWS](#), this half-day workshop is intended for individuals who are preparing for the [AWS Certified Solutions Architect – Associate](#) exam. In this workshop, we review what to expect at the testing center and while taking the exam. We walk you through how the exam is structured, including question formats, content domains, and the breakdown of questions across those domains. We also teach you how to interpret the concepts being tested by a question so that you can better eliminate incorrect responses. During the workshop, you will have the chance to apply knowledge and test concepts through a series of practice exam questions.

Benefits

This workshop is designed to teach you how to:

- Navigate the logistics of the examination process
- Understand the exam structure and question types
- Identify how questions are written to test AWS architectural concepts
- Interpret the concepts being tested by an exam question
- Allocate your time in studying for the [AWS Certified Solutions Architect – Associate](#) exam
